Introducing decorative protective aprons with antiviral Shieldplus™

Fashionizer has teamed up with Panaz Fabrics, a UK manufacturer of anti-microbial fabrics for the healthcare sector, to create playful printed aprons for the protection of nursery staff. The thinking behind this product being increased protection of staff from the infection in an environment where social distancing is impossible and where infected children might be asymptomatic.

Shieldplus™ anti-microbial protection is a nanotechnology which is applied as a coating onto the fabric. The coating attracts and physically destroys Coronavirus immediately on contact.

These protective aprons provide:

- Tested by Microbiological Solutions Ltd.
- Continued performance for up to 50 washes
- Water based chemical with no heavy metals
- Product not harmful against humans and environment
- This coating can be applied to any print design

Masks are:

- Made of three layers of fabric according to WHO standards
- Guaranteed for a minimum of 30 washes
- Breathable and comfortable to wear
- Tested by Nelson Labs to provide 77% protection
- Outer layer: 63% Organic Cotton, 35% Polyester, and 2% Lycra. Lining: 100% Cotton
- Inner lining with non-woven filter: 65% Polyester and 35% Viscose
- Treated with antibacterial Silverplus™ treatment and hydrophobic finish
- Available in two sizes: S/M and L/XL, in a variety of colours
