

High Holy Day Covid Protocols

Please help us to keep everyone safe by following the protocols that are currently in place. We will continue as they are written unless there are policy changes suggested by the state and the CDC.

Please check your email for any last minute changes.

Upon entering the Temple everyone 12 years of age and over must have proof of their vaccination on file with the Temple Office or will have to show their vaccination proof or the NYS Excelsior Pass upon entering.

There will be two lines at the door, one for those whose information on file - your ticket will have a mark on the corner. If we don't have your information on file you will need to show proof of vaccination at the door with your ticket.

Everyone age 2 and up must be wearing a mask properly, even though you are vaccinated, while in all areas of the Temple. We also ask that you socially distance yourselves 3 ft. as best as you can.

There will be a separate section for those families with children under 12 that have not received their vaccination.

REMEMBER, WE ARE ALL IN THIS TOGETHER!
