Parking Distance from Green

The requested distance to park from a green is 50 feet.

- We suggest you take a few normal walking strides at home and then measure the distance you covered.
- How many steps is 50 feet? Let's say you take 5 steps to cover 15 feet. Then it would take you 17 steps to be 50 feet away. You would only need to do this a couple of times before it's natural to know how far you should park your cart away from the green.
- When in doubt, park on the cart path even with the pin.
- Thanks for helping us keep the area around our greens in optimal playing condition!

Thank you from the Golf Staff and the Golf Committee for your help!
