8:30AM
(CLC) LECTURE HALL

ARCHITECTURAL COMPLIANCE—KEEPING OUR COMMUNITY LOOKING ITS BEST

MAILBOX AND MAILBOX ENCLOSURES:

A. Mailboxes must comply with U.S. Postal Service requirements. USPS will refuse delivery of mail to boxes not in compliance with their stated specifications.

B. All mailboxes require an Architectural Modification Application and Architectural Compliance Committee approval. Mailboxes must blend with the aesthetics and architectural style of the community.

Construction type for new boxes should be enclosed block column, using stucco, brick, or stone materials, on a concrete base.

Ornamental wrought iron, simple metals and wood post type bases or enclosures are not permitted.

C. Stucco mailbox base structures must match the texture and finish of the residence and be painted to match the primary color of the residence. Decorative stone may be added to the mailbox to match that of the home.

D. Any modifications to existing mailboxes also require an Architectural Modification Application and Architectural Compliance Committee approval. A photograph or drawing of the desired modification must accompany the application, along with desired color(s) which must conform to the aesthetics of the residence as well as the community. In addition, the base that is to support the mailbox must be in good condition and free of corrosion or other unsightly degradation.
