Re: High School Athletics Physicals that benefit the CVCS Athletics Department

Dear Parents,

For many years RehabAuthority Physical Therapy has assisted local high schools and junior highs by providing high quality physicals that far exceed the basic requirements provided by the state athletic commission. Families have found it super convenient and 100% of the fees are donated back to your athletics department.

On **August 6th, from 5:00-7:00 p.m.** we will have local physicians and 8 physical therapists volunteering their time at the Cole Valley Christian School Secondary gym (200 E. Carlton Ave., Meridian, ID 83642) to provide physicals for all athletes for the upcoming 2019-2020 sports seasons.

The cost of the physical is \$20 and 100% of the fees will be donated back to the Cole Valley Athletics Department. We have often donated over \$2,000 each session for local high schools in the past. This is an absolute no-brainer as the kids require a physical every 2 years anyway. Last year we were able to make a nice contribution back to the Cole Valley athletic department of approximately \$1,800. Our goal in this third year is to generate over \$2,500!

Feel free to invite friends outside of CVCS to utilize this event for the physicals they might need. If you have any questions or concerns please feel free to contact me at any time. I look forward to seeing you on August 6th, from 5:00-7:00.

Sincerely,

Galen Danielson PT, DPT, OCS
