How to Set Up a Raptor Safe Passport Profile for Faster Entry into Guardian Angels School

Step 1

Download the Raptor Safe app from the Apple App Store or Google Play Store.

Step 2

After downloading, open the app and enter your phone number when prompted.

Step 3

You will receive a text message with a verification code. Enter the code. Once entered, you can choose whether to enable biometric login (such as Face ID or fingerprint). Tap Next to continue.

Step 4

Verify your identity by scanning your state ID or driver's license. Tap Scan ID to begin. The app will guide you through scanning both the front and back of your ID.

Step 5

After completing the ID scan, you'll be prompted to take a selfie. This helps verify that your photo matches your ID. Tap Go to access your camera. Follow the on-screen instructions to take a clear photo—make sure you are in good lighting and remove hats, glasses, or other accessories.

Step 6

Review the imported information carefully. Provide an email address for account recovery in case the app is deleted or reinstalled. You may also enter your preferred name if it differs from what's on your ID. Tap Next when finished.

Step 7

You will not need an invitation code, and that's perfectly fine. Select "Click here to continue without one." Once completed, your Raptor Safe Passport profile setup is finished!

Using Your Raptor Safe Passport at Guardian Angels

• Open your profile and swipe up from the bottom of the screen to display your QR code.
• At Guardian Angels, choose "Scan School or Raptor QR Code" at the Raptor kiosk when entering the building.
