

Skin “Re-Firm” Package- \$2955

(Value: \$3695)

Savings of 20% = \$739 Off

Designed to increase collagen and elastin production for the reduction of fine lines, wrinkles and skin laxity.

Package Includes:

- **6 Réjuvapen™ Micro-needling Treatments** (Value: \$1740)
Réjuvapen® is a micro-needling device that works to rejuvenate the skin. It is effective in restoring firmness to the skin as well as reducing fine lines and wrinkles. The Réjuvapen® utilizes tiny needles to vertically pierce the skin in a controlled and precise pattern at a very high speed. The stamping action of the Réjuvapen® tip creates micro-injuries to the skin. These micro-injuries signal the skin's wound healing response to repair and regrow the skin. In turn, this response stimulates new collagen production providing many anti-aging benefits.
- **6 Laser Genesis™ Treatments** (Value: \$1680)
Laser Genesis™ gently heats the dermal layer of the skin resulting in collagen stimulation and re-growth. This procedure has been clinically proven to treat fine lines, enlarged pores, facial redness and uneven skin texture. Laser Genesis™ can help restore the skin's youthful glow and appearance by reversing many of the common signs of aging and sun damage.
- **Neocutis Bio Serum Firm** (Value: \$275)
Neocutis Bio Serum Firm is super-charged with an unprecedented amount of growth factors, peptides and pro-collagen Amino Acids to help provide faster, more visible results. This exclusive combination works together to promote youthful, firm and supple-looking skin.

Treatment Plan:

Use Neocutis Bio Serum Firm morning and night, every day, including the days before and after in office treatments.

Alternate Réjuvapen™ and Laser Genesis™ Treatments every 2 weeks.
