The Mobilize California Summit is the region's premier fleet modernization, alternative fuels, and workforce training event where industry and education intersect to collaborate on existing and emerging technologies, trends and training tactics.

Future of the Automotive Industry

Across the globe there are about 1 billion automobiles for 7.5 billion people. Learn the tech trends we should know and the logistics opportunities that lie ahead for the rapidly evolving auto industry.

Johanna Maska
CEO, Global Situation Room, Inc.

George Szabo
Co-Founder & CEO, AIXIA Global Inc.

Millenials are the Future of the Supply Chain

In today's current state, there are many employees that are leaving the logistics industry at a frightening rate. AJ has focused on getting more young professionals into Supply Chain, helping them understand the business, learning to work their way up the ladder, and staying in this industry for the future.

AJ Tjaden
Formerly with Nike China

Sponsored in Part by the California Community Colleges
