## REQUIRED TEXTS

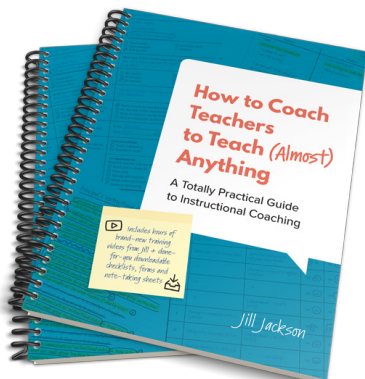

Included with Training Fee.

### Get Some Guts, Coach!

6 steps that every instructional coach, team leader, mentor or facilitator must take to unleash true coaching power

- Jill Jackson

### How to Coach Teachers to Teach (Almost) Anything

A totally practical guide to instructional coaching

- Jill Jackson

The Afterschool Quality Coaching Book Study has been developed for program supervisors who support staff working directly with students in out-of-school-time settings. It will support supervisors in learning about the coaching process to improve support for staff in the areas of lesson delivery, classroom management, behavior management, and student engagement.

Sessions will include weekly reading assignments with discussions to build the collective knowledge of all participants based on a specific coaching topic. Participants must be committed to actively engage in sessions. A Syllabus with assignments will be sent after registration. A live Skype chat will be held for 1 hour each week. A headset with microphone & webcam is required.

If you attend **ALL** sessions, Growing Futures credit is available.
