

# IMPROVING ACADEMIC LITERACY

STUDENT ENGAGEMENT

ACADEMIC VOCABULARY

One of our most important roles as educators is to create an environment where ALL students can learn and be successful.

Work with a team of "master teachers" from multiple schools to combine research-based strategies with implementation, feedback, and coaching.

Building administrators invite master teachers based on expertise, leadership abilities, and willingness to be observed and give/receive feedback.

Utilize the practice of microteaching and public practice as a vehicle to enhance teaching and learning by exploring the implementation of student engagement strategies to create a classroom culture of "Everyone Does Everything!"

The learning series covers three components with each one being a pre-requisite before advancing to the next: Student Engagement, Academic Vocabulary, and Critical Thinking and Comprehension
