

Child Care Aware of ND is excited to announce the launch the Shared Services Alliance!

The goals of the Shared Services Alliance are to save providers/programs time, improve cash flow and revenue, to better support and manage their staff, and improve overall family communications.

Save Time

Improve Cash Flow & Revenue

Support and Manage Staff

Improve Family Communication

What is the Shared Services Alliance?

Providers/programs were invited to indicate what of the three parts of the Shared Services Alliance they would be interested in implementing. The three parts included:

1

Free access to Procure Child Care Management software. Procure allows for contactless check-in/out, automates invoicing, tuition collection and payment processing, keeps families up to date on their children's activities, forecasts growth opportunities, and create, send, and store digital documents.

2

Free access to Learning Beyond Paper Digital Curriculum. Learning Beyond Paper provides 52 weeks of lesson plans that are aligned to the ND Early Learning Standards and CLASS. Providers/programs will also receive access to quarterly kits from Lakeshore to support the Curriculum.

3

Free Business Training and Coaching through the Women's Business Center. This optional capacity building opportunity is a 10 week business intensive that will focus on major factors affecting the child care industry today.

What is the current interest in the Shared Services Alliance?

Funding provided by the North Dakota Department of Health and Human Services
