participating  
**STUDENTS**

**33** EVENTS  
GRADES 4-12

**2011**  
DISTRICTS  
SCHOOLS

**93** TEACHERS  
PARTICIPATED

each teacher participated in  
**10-60** DAYS HOURS  
professional learning

## MATH SCIENCE PARTNERSHIP - You'RE HIRED!

### PROGRAM DESCRIPTION:

The goal of You're Hired or any Project Based Learning opportunity is to see an improvement in student facility with 21st Century Skills and an appreciation for STEAM (Science, Technology, Engineering, Art, and Math). Increased student achievement and a deeper understanding of the content through Project Based learning is just part of a bigger picture, engagement with the real-world and a glimpse into careers (engineer, researcher, technician, web-designer, marketing director etc.) as students role-play within a company sets the stage for meaningful learning.

## FOCUS AREAS

Project-Based Learning

21st Century Skills  
Critical Thinking | Collaboration  
Communication | Creativity

STEAM  
Science Technology  
Engineering Art Math

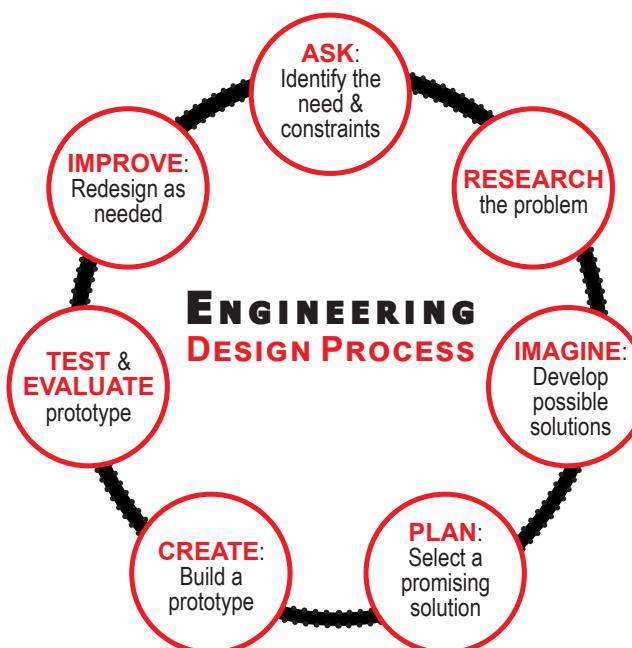

Students reflect on their experience and how it may have changed their knowledge and interests in STEM-related careers...

**58%**

of students responding reported learning more about what an ENGINEER does.

**53%**

of students responding reported learning more about what a TECHNICIAN does.

*"The wealth of information I learned was astounding! PBL is fantastic. I even learned things to help me with my STEM instruction."*

*I so enjoyed coming to this training. I learned so much and feel my students will benefit.*
