Engineering, Mathematics,  
Manufacturing, and Design

## GRAB & GO STEM KITS FOR YOUR SCHOOL

Looking for a way to engage industry or community partners?  
Training & support is available to engage industry professionals  
& partners in the STEM2D activities with students.

STEM2D Grab & Go Kits available at no cost to your  
classrooms or afterschool programs. Hands-on  
activities range from 15 minutes to 4 hours and  
target one or more of the STEM2D subjects.

Funding available to support implementation  
(including staff time, transportation, snacks, etc.)
