Great Bay National Estuarine Research Reserve Center Volunteer Opportunity

Volunteer educators are essential to our education programs! Spring field trips begin in mid-April, and over two months, we host around 2,000 students at the Discovery Center to learn about the natural history of Great Bay. With a small education staff, these groups are led by our amazing volunteers! If you enjoy working with children, being outdoors, and estuaries, join our team! No teaching experience is required; all training is provided. New volunteers shadow experienced ones until they are ready to lead a group. Programs run every weekday for two months, and volunteers choose their availability. Email **melissa.brogle@wildlife.nh.gov** and **beth.heckman@wildlife.nh.gov** with questions and to register for training!
