**“Zoom Call Yesterday: 300+ State Lawmakers Saw Election Rigging Evidence”**  
By Donna Garner  
1.3.21

<https://www.educationviews.org/zoom-call-yesterday-300-state-lawmakers-saw-election-rigging-evidence/>

***The Dems/Biden “Steal the Election Plan” was to cause election rigging in dozens of states all at once on Election Day with the belief that such massive fraud could not be stopped.***

Many people became a part of the “coalition” including RINO’s, never-Trumper, Dems, establishment politicians, the mainstream news media, and partisan judges (even those on the U. S. Supreme Court who chose to deny their responsibility by using the “lack of standing” gimmick).

***The coalition’s main strategy was for all of them across the country to pretend that no election rigging had occurred, believing that they could utilize successfully the old “The Emperor Wore No Clothes” trick. If as a huge coalition they could all act as if nothing suspicious had occurred, then the public would soon fall in line with the final result being that Biden and the other Dems down-ticket would be elected.***

To carry out this strategy, the coalition tried to silence the people who knew the truth, to intimidate any who had the courage to speak out, and to deride the whistleblowers as partisan freaks.

***Fortunately for the future of America, the coalition’s plan “sprung a leak” when thousands of on-sight observers who believe in fair elections came forth under penalty of perjury to sign affidavits; and numerous court cases began to be filed.***

***The exciting news is that the evidence is now gushing out for the public to see. Even lawmakers, who are sometimes the last to know, are realizing that the evidence is too compelling to ignore.***

## AMAZING ZOOM MEETING ON SATURDAY, 1.2.21

*In a Zoom meeting yesterday, a six-person legal team that included Rudy Giuliani and Peter Navarro briefed some 300+ state lawmakers on the evidence of election rigging. The legal team explained exactly how the Dems/Biden carried out their plan to steal the election.*

*From reports shared by those on the call, the lawmakers were furious and want immediate action.*

*This is where the public comes in. We must continue to put pressure on all those in Congress and in state legislatures to urge them not to accept the results of elections from states where election rigging occurred.*

Thankfully eleven U. S. Senators have stepped forward to object on Jan. 6 to the electoral votes from disputed states and to request that an Electoral Commission be appointed to conduct a 10-day audit of the votes in those states.

*The evidence presented yesterday at the Zoom meeting has been posted on GotFreedom (a non-profit, election integrity watchdog organization) so that the whole world can see it.*

*This is exactly what the Biden/Dem coalition desperately feared the most – the documented evidence getting out to the public.*

“Evidence of voter, ballot, and election irregularities and lawlessness in the presidential election of November 3, 2020”

**The 2020 election witnessed an unprecedented and coordinated effort through public-private partnerships to improperly and unlawfully influence the election for Mr. Biden by: 1) creating a two-tiered election system in which state and local officials targeted Biden constituencies to turn out the vote while targeting Trump constituencies to depress the vote; 2) using private funds to pay election judges and officials who managed the way ballots were received, accepted, cured, and counted; 3) having private interests dictate or encourage local election officials to violate state laws protecting the integrity of the ballot; 4) consolidating counting centers to justify the delivery of hundreds of thousands of ballots to one location, removing Republicans from their lawful right to view the receipt, handling, and counting of ballots in the consolidated counting centers; 5) initiating scores of lawsuits as early as March of 2020 to undermine ballot integrity measures; 6) accepting and receiving more than \$400 million from private interests to dictate terms in which the election would be managed in Democrat strongholds; 7) allowing private interests to gain special access and use of sensitive citizen information maintained by government; 8) benefiting from Big Tech monies and censorship of information; 9) training left-leaning poll workers in Democrat strongholds on how to commit fraud; 10) fighting transparency by resisting legitimate requests to audit and review ballots, ballot envelopes, and computer logs; 11) threatening legislators with criminal investigation and prosecution if they disagreed with blue state executive officials on the election result; 12) locking Republican legislators out of the state capitol to prevent them from meeting and challenging election certification; and 13) engaging in illegal ballot harvesting.**

**This conduct resulted in an election in which the American people cannot have faith, which violates state law and which should not be certified.**

**Below are several thousand pages of evidence and hours of video explaining this evidence for your review.**

**This evidence involves admissions by election officials, expert opinions, affidavits of witnesses, and dramatic evidence of the break in ballot chain of custody and the infusion of hundreds of thousands of fraudulent ballots into the counting stream.**

**This lawlessness was made possible by work stoppages, prohibiting bipartisan participation, and early morning ballot drops in consolidated counting centers, all of which undermined election integrity.**

**You deserve access to this information, and we are pleased to make it available to you.**

## **1. THE LEGITIMACY AND EFFECT OF PRIVATE FUNDING IN FEDERAL AND STATE ELECTORAL PROCESSES**

**Amistad Report exposes a dark money apparatus of 10 nonprofit organizations funded by five foundations whose intent was to fundamentally undermine the electoral system.**

## **2. A HISTORICAL, CONSTITUTIONAL, AND LEGAL EXAMINATION OF ELECTORAL COLLEGE DEADLINES AND THEIR IMPLICATIONS FOR THE 2020 PRESIDENTIAL ELECTION**

The Amistad Project released an authoritative research paper that breaks down the history of Electoral College deadlines and makes clear that this election's December 8 and December 14 deadlines for the selection of Electors, the assembly of the Electoral College, and the tallying of its votes, respectively, are not only elements of a 72-year old federal statute with zero Constitutional basis, but are also actively preventing the states from fulfilling their constitutional — and ethical — obligation to hold free and fair elections. Experts believe that the primary basis for these dates was to provide enough time to affect the presidential transition of power, a concern which is fully obsolete in the age of internet and air travel.

## **3. AMISTAD PROJECT 2020 PRESIDENTIAL ELECTION SUPER-APPENDIX**

The Amistad Project released a massive, 1,400-page super-appendix detailing extensive evidence of lawlessness allowing ballot and voter fraud affecting the election results in five key swing states.

[PRESS RELEASE: Amistad Project Files Federal Lawsuit Demanding State Legislatures in Contested States Be Allowed to Certify Electors Prior to Congressional Count](#)

#### **4. WISCONSIN SENATE COMMITTEE ON CAMPAIGNS AND ELECTIONS**

Phill Kline, Director of the Amistad Project, testified at the WI Senate committee. Kline describes the irregularities and intentional violations of the law that were part of an orchestrated effort to improperly influence the election.

#### **5. REPORT EXPOSES HOW MARK ZUCKERBERG'S \$500 MIL CAUSED CHAOS AND INFLUENCED THE OUTCOME OF THE 2020 ELECTION**

The Amistad Project hosted a of national press conference, releasing a groundbreaking report exposing a dark money apparatus of 10 nonprofit organizations funded by five foundations whose intent was to fundamentally undermine the electoral system.

#### **6. ELECTION WHISTLEBLOWERS COME FORWARD**

The Amistad Project hosted national press conference featuring three whistleblowers who provided personal eyewitness accounts demonstrating significant potential election fraud, some of which affects hundreds of thousands of ballots.

#### **5. SWING STATE BALLOT ANALYSIS**

## **8. PA LAWMAKERS: NUMBERS DON'T ADD UP, CERTIFICATION OF PRESIDENTIAL RESULTS PREMATURE AND IN ERROR**

A group of state lawmakers performing extensive analysis of election data revealed troubling discrepancies between the numbers of total votes counted and total number of voters who voted in the 2020 General Election, and as a result are questioning how the results of the presidential election could possibly have been certified by Secretary of the Commonwealth Kathy Boockvar and Governor Tom Wolf. These findings are in addition to prior concerns regarding actions by the Supreme Court of Pennsylvania, the Secretary, and others impacting the conduct of the election.

## 10. GEORGIA CHAIRMAN LIGON REPORT

**Georgia Chairman Ligon’s report of the election law study subcommittee of the standing senate judiciary committee.**

### KEY REMAINING LITIGATION:

**1. In *Trump v. Wisconsin Elections Commission*, the Supreme Court must address whether unelected Democrat bureaucrats in Wisconsin broke the law by authorizing illegal ballot harvesting through “human drop boxes” and over 500 unmanned drop boxes statewide. This case affects an outcome determinative number of illegal mail-in ballots: over 90,000 and the margin of difference is 20,000.**

**2. In *Trump v. Biden*, the Supreme Court must address whether the Wisconsin state Supreme Court allowed illegal absentee ballots to be counted during the recount without even considering the merits of challenges filed against them in violation of Article II of the U.S. Constitution. This case also affects an outcome determinative number of illegal mail-in ballots: over 50,000 and the margin of difference is 20,000.**

**3. In *Trump v. Boockvar*, the Supreme Court must address whether, in Pennsylvania, Democrat state Supreme Court judges and the Democrat Secretary of State broke the law by abolishing signature verification, counting illegal ballots cast after the deadline, and illegally fixing ballots Democrat ballots. This case also affects an outcome determinative number of illegal mail-in ballots: over 2.6 million and the margin of difference is 80,558.**

**4. In Georgia, the [Trump v. Kemp](#) case concerns signature matching rules which were illegally changed due to a consent decree without the Legislature's approval. In addition, this case addresses whether unelected Democrat election officials broke the law by illegally counting ballots in Fulton County after they sent Republican observers' home on election night.**

**5. In Wisconsin Voter's Alliance, et. al. v. The Electoral College [et.al](#), the election integrity group The Amistad Project of The Thomas More Society details the influence of a "shadow government" funded by tech giants, including Mark Zuckerberg's \$400 million, to purchase local election offices and improperly influence the election for Biden. The plaintiffs ask the Court to allow state legislatures, which have the primary responsibility under the U.S. Constitution to certify presidential electors, to meet in their plenary power to investigate and certify the election despite arbitrary statutory deadlines on the electoral college. This suit would allow the time necessary to properly review the election prior to inauguration day.**
