

Boosting the Immune System of the Body of Christ

A Seminar for Disciples Elders and
Other Congregational Leaders

Disciples Elders and other congregational leaders will learn to develop healthy patterns of living together as the Body of Christ, especially in time of rapid change. As spiritual leaders in the congregation, Elders are the chief stewards of the body's well-being. They set the tone by taking stands, staying connected, and challenging the church to stay true to God's mission. Those who participate in this seminar can expect to develop their confidence to lead calmly and thoughtfully and to move the congregation through conflict toward healthy functioning.

Boosting the Immune System of the Body of Christ
