EMS-TEI policy manual development can be difficult especially if you are starting from scratch. I have received many requests from EMS-TEI directors for a sample EMS-TEI policy manual. I am pleased to announce that Owen County EMS TEI has agreed to share their EMS-TEI policy manual with other EMS educational institutions. The Owen County EMS-TEI policy manual is an excellent model for EMS-TEI's to use when creating or updating their policy manual.
