

Transition Tips for Families

P2P Transition Partners help families and students prepare for Adulthood

P2P Transition Partners are specialists in planning and preparing for the transition to adulthood. Transition Partners are a part of Georgia Vocational Rehabilitation Agency's E3 Project which is focused on improving employment outcomes for youth with disabilities. They are currently assigned to Decatur, Hall, Paulding and Troup counties and the 3 state schools for deaf and blind students. Transition Partners are focused on assisting families with information, support and training to help them prepare for their child's transition to a successful life beyond school.

Transition Tips for Parents:

1. Transition Planning should be a part of your child's IEP by the 16th birthday, if not earlier. Find resources on Transition Planning on the [P2P Roadmap to Success](#).
2. Prepare for the transfer of rights to your child at 18 which is the age of majority in Georgia. Learn more about [Financial and Legal Planning](#).
3. Consider all opportunities and programs that are available to assist your child in achieving their transition goals of [employment](#), [post-secondary education](#) or [independent living](#).
4. Contact Parent to Parent of Georgia and ask to speak to the Transition Partner in your school district or a Regional Coordinator. Transition Partners and Regional Coordinators are able to match families to Supporting Parents and connect them to providers from the P2P database. They can also provide families with reading and resource materials from our Virtual Library and share information about training and educational sessions in your area.
