

YOUTH ACTIVITIES AT P2P

This summer, P2P was able to enjoy having a young person in our midst. Caroline, a student at Brevard College, spent several hours each week in our Atlanta office working on youth related projects. She gave her 20-something perspective to the Facebook Group, [Georgia Transitions – Youth Group](#), facilitated several meetings of our Youth Advisory Council, assisted with a youth video project, shared a [weekly blog](#) about her adventures and experiences as a young adult with learning differences, and contributed information and resources to the [Youth Launchpad](#) on our [P2P Roadmap to Success](#). Caroline's back in school now, but we hope you'll share the work she did over the summer with the young people in your lives.
