

Presented by the Center for Change in Transition Services (CCTS)
Sponsored by the Division of Vocational Rehabilitation (DVR)

DVR/ESD T-Folio Collaboration

T-Folio Collaboration Workshops

T-Folio is a free, online transition portfolio tool developed by the [Center for Change in Transition Services \(CCTS\)](#). It is designed for youth with disabilities in Washington state and the school/agency personnel who support them.

CCTS is presenting free T-Folio workshops in each ESD to encourage collaboration and co-instruction between school and DVR staff. Sponsored by DVR, these workshops include an overview of the components of the T-Folio and suggestions around collaborative facilitation.

DVR counselors and transition consultants for each ESD will be in attendance. Join us for this opportunity to build and enhance connections that support students' transition from high school to the adult world.
