

INFORMATION: HOUGH CAMPUS SCHOOL CLOSURE PROCEDURES

In the event that the Hough Campus needs to close, teachers and students will use the following process to warrant safety among its community while ensuring the continuity of education.

- Students will take their books home over Spring Break so classrooms can be fully disinfected.
- iPads will stay at school for cleaning and updating.
- Teachers will develop and deliver lessons and materials remotely (using Schoology). All Canterbury academic resources are able to be used on any mobile device. Teachers may use online screenshare software for a live or recorded virtual lesson.
- Look for further communication over Spring Break for updates.

Schoology is our primary parent/student communications platform. If you are having trouble accessing Schoology, please contact our support team at support@canterburyflorida.org.
