

Simple Sailboat Craft

You can make these cute little toy boats in just a few minutes. They are great for preschoolers and kindergartners to practice cutting with scissors, drawing, and molding clay.

(<https://members.enchantedlearning.com/crafts/boats/lid/>)

Supplies:

- A wide plastic lid (like the lid from a margarine tub)
- A drinking straw
- Construction paper
- Kids' scissors
- A hole punch
- Crayons, markers, and/or stickers
- A small wad of play dough

Cut a triangle from a piece of construction paper - this will be your sail.

Decorate the sail with crayons, markers, and/or stickers.

Punch three holes along one side of the triangle.

Weave a drinking straw (the boat's mast) through the holes.

Put a small wad of molding clay on the inside of the lid. Push the end of the drinking straw into the clay.

You now have a cute little toy sailboat that can float in water!
