RECYCLE YOUR BOAT SHRINK WRAP THIS SEASON

Every year when boating season begins, the boat shrink wrap covers used to winterize and protect boats are thrown away en masse. These plastic covers do not biodegrade in the landfill and plastic particles litter our harbors. There's a better way. Our boat shrink wrap recycling program, **Recycling Run**, makes recycling easy, affordable, and sustainable. We are counting on your commitment to grow the number of boat shrink wrap covers recycled in Michigan.

HOW TO RECYCLE YOUR BOAT SHRINK WRAP:

Purchase an EZ-fill Recycling Run Bag for \$7.00 each from a participating provider or online at <https://dr-shrink.com/product/ez-fill-recycling-run-bag/>. Bags are usually shipped within 5 business days of purchase. Fill out the Recycling Run Registration Form at <https://www.michiganrecycles.org/ag-plastics/> or fill out and send a picture or scanned version to: kfournier@michiganrecycles.org **by June 1st, 2021**. Within a week of submitting your registration we will send a confirmation that includes scheduling details, dates for scheduling your pick-up, and locations plastic can be dropped off.

It's that easy to do your part to keep this premium, recyclable material out of the landfill.

*Please see the **2021 Recycling Run Registration Form** for important details and requirements. In order to participate, you must sign and return the Registration Form to the Michigan Recycling Coalition (MRC). Pickup regions are limited to Michigan participants.*
