

PROVIDER NETWORK

We Have Updated Our Credentialing Verification Partner

Louisiana Blue is partnering with Medallion as our credentialing verification organization. They will assist with the verification of our credentialing and recredentialing applications. They may contact providers on behalf of Louisiana Blue to verify information submitted on these applications.

What to Expect

Providers in the credentialing and recredentialing process may be directly contacted by Medallion to verify application details and supporting documentation. When additional documentation is needed to process your application, Medallion will direct you on how to submit needed documentation.

Thank you in advance for working with Medallion on our behalf to ensure a positive credentialing experience.
