Fact Sheet: Pregnancy Centers-Serving Women and Saving Lives

What are they?

Pro-life pregnancy centers (formerly known as crisis pregnancy centers and also as pregnancy care or resource centers) are faith-based, community-based, not-for-profit organizations which first began to appear in the U.S. in the late 1960s, as abortion was becoming legal, to provide care and resources to assist women and immediate and ongoing needs related to unexpected pregnancy. Their focus on alternatives to abortion, also known as life-affirming services, was and is designed to empower a woman to welcome her child into the world. Today, pregnancy centers, provide an expanded range of essential and professional care encompassing support services, medical care, and resources, at no cost to the women, men, and youth they serve. Personalized care is provided within a respectful, compassionate, and supportive environment by trained workers/individual.

In 2023, there are approximately 4,357 pregnancy center locations in the U.S. (Counting Medical Mobile Units as Separate Locations).

*Do you know that for every three babies born another die in abortion? That's **1.2 million babies** each year; that's **3,300 babies every day**; that is one baby every 26 seconds and that is just in America. So now you know.... These are some of the statistics listed on www.chooselifeusa.com The purpose of **Daybreak Pregnancy Care Center** is to build a culture of life in Dooly, Crisp & Wilcox and America where all are welcomed, valued, and protected, especially those who live on the mercy of others. The Center has embraced the truth of God's word, that life is a precious gift from God that He alone can give, and He alone can take away.*

The women we have met who have had abortions of their child. Common feelings are extreme sadness, depression, grief, and suicidal thoughts. have expressed deep regret and a sense of not being able to forgive themselves. Many have found healing and have experienced forgiveness, but they have never forgotten the tragedy of the abortion. One client who came to the Center, said she felt overwhelming despair and wondered why God had not stopped her. All the reason that made sense did not make sense afterwards.

We would like to provide you with the opportunity to become part of The Daybreak Pregnancy Centers vision of choosing life and becoming that voice for the unborn.
