

Growing a Culture of Life for 12 years!

The highlights for the Months January-October 2024, are times we partner with other organizations to service our communities, Dooly, Wilcox and Crisp. Go to all our volunteers who helped, with our outreach to all the clients who have come to the Center. Go volunteers from South Central Baptist Association. The women's event at the Forehand Farm, attending a baby shower for the Center, by Sherry and others, this was a great opportunity to tell all who attended about Daybreak, and talk about who we are, what we do and the men and women we serve.

I recently had the opportunity to drop off baby shower gifts to a family that was featured in the latest weekly email blast. They were beyond grateful for the many gifts they received thanks to the generosity of all our donors, volunteers, our donors include Churches, individuals, and businesses. I went home and told my husband "This is what we do".

We continue to maintain 100% satisfaction rate among our clients. I regularly hear the thankfulness in their voices as they leave the center, their gratitude for the services we provide is in stark contrast to how we and other pregnancy resource centers are portrayed in certain media by politicians whose campaigns are funded by abortion providers.

As we celebrate our 12-year anniversary of offering hope, help and healing, you can reach out to your church and community groups as we seek to continue to spread the word on what we offer. Contact me to schedule a speaking engagement and /or to show a video about the center and to have flyers distributed and/or posted in your church. Help grow a culture of life in our communities, Dooly, Crisp, and Wilcox Counties.

It is such a privilege to be a part of all that God is doing at the Daybreak Pregnancy Center Choices. We are so thankful to you, our donors, and to our volunteers and prayer warriors. Your partnership makes this life-saving possible!

After 12 years of divine guidance and affirmation, DBPRC is as strong and committed to the cause for life as ever. We see the Lord working through the many faithful believers that He has led to the center as counselors, staff, and volunteers. Also, for 12 years His financial provision has been provided through loyal partners like you, who give generously and joyfully to make it possible for us to have a presence in our communities.

Being a non-profit organization that provides all free services and goods is always challenging. In this fallen world, being committed Christians, striving to emulate the ways of Jesus, brings added challenges. As the culture influencers become bolder and more powerful, it is more difficult to spread awareness of the life-affirming alternatives to abortion, we believe that God has been preparing DBPRC over the last 12 years for a time as this.

This spiritual battle against the principalities and rulers of the darkness of this world continues. 2024 thus far has presented as many challenges as ever, spiritually, culturally, legislatively, and financially. We can only assume more of the same in 2025, plus whatever effect the election in November might have.

Each Baby is precious to God- Karen's Story:

I came to Daybreak Pregnancy Center because I had an unplanned pregnancy with my boyfriend. Both of us was scared of the pregnancy and was uncertain about our life plans. We searched for pregnancy information on line and DBPRC popped out. The hardships that we were facing were our life plans with a baby. We were not ready for parenting and we also had financial hardship,

What I found most about the Center was the welcoming staff! The counselor was a great listener, being patient and warm -hearted. They were also knowledgeable, guiding me through the initial panic stage when I found myself pregnant. If I could speak to a potential client, I would say that I recommend DBPRC to girls who are panicked, scared, confused, or have other mixed emotions when they discover that they are unexpectedly pregnant. DBPRC not only comforts us at the beginning, but throughout the whole pregnancy I felt so courageous to have made my pregnancy decision to keep my baby and I am so glad DBPRC staff was there holding my hand. I could not have made my decision to keep my baby without them!

Thank You for Helping Us Make a Difference!

DBPRC Could Not Help These Mothers and Families Without Your Support!
