# STEP Into Safety

Announcing ABCSD's **STEP Alliance**

## WHY IS SAFETY IS IMPORTANT

- 1. Getting Your Workers Home Safe:** This is the single most important reason for safety - the well-being of your workers.
- 2. Credibility in The Construction Industry:** Safety is a selling point, nobody wants to hire a company that is known for frequent accidents and injures on their jobsites.
- 3. Safety Saves You Money:** Having safety measures in place, saves you money. The higher safety measures on a project, the lower the injury rates, increasing productivity and profits; it can lower your EMR saving you money on insurance.
- 4. Credibility As An Employer:** Workers want to know they are a priority and you put safety first.

### ABCSD'S STEP ALLIANCE
