Institute of Arts Current Exhibits

**We invite you to attend an Elevate BPU Express
Continuing Education Event offering 2 LU/HSW CEUs:**

Presentation 1: Designers Guide to Vegetative Roof Systems

This presentation will provide an overview of the benefits of vegetative roofing, discuss market drivers, design and installation methods, and maintenance considerations.

Presentation 2: High Density Cement Fiber Exterior Wall Panels, Terracotta Wall Panels and Framing Systems, Thermally Broken Z Girts

This course will review exterior wall framing systems, thermally isolated composite Z Girts, high density fiber cement panels, and terracotta exterior cladding systems.

Presentation 3: Commercial Roof Codes and Standards

This course reviews codes that govern the health and safety of a building as it relates to roofing (IBC, IECC, and IgCC), and also reviews the impact of agencies such as FM, ASHRAE, and UL have on roof codes and standards.

Earn 2 LU/HSW CEU credits

Earn continuing education credits through these interactive courses. Presentations 1 and 3 qualify for both AIA and IIBEC CEUs. All participants will be provided with CEU certificates after the event.
