## **Minnesota LECET Announces 2019 Safety Driven Contractor Award Winners**

Minnesota LECET is proud to announce the listing of 51 Union signatory contractors selected for the *2019 LECET Safety Driven Contractor Award of Excellence*. The winning contractors met the required safety related criteria in the areas of safe work performance, training and safety program improvements in order to be recognized.

The formal award ceremony in March was cancelled due to the coronavirus pandemic. No formal program is planned for 2020 at this time. LECET will reach out to the winning contractors to deliver award plaques and plates. A press release will be issued to Finance & Commerce News in the coming weeks. The winning contractors will also be listed in the LABORER NEWS – publication by Minnesota LECET, a quarterly newsletter magazine with a distribution of over 15,000 to members, contractors, public officials and more.

Congratulations to the following Union contractors:
