

EvoClean with Total Eclipse Controller

EvoClean Precision Performance, Lower Cost

Betco® has the solution to the squeeze tube dispenser inconsistencies and routine maintenance needs. EvoClean is a venturi-based, water-powered laundry dispenser that has no squeeze tubes, meaning little to no maintenance, consistent dosing, and predictable clean loads –every time!

Consistent Results

No squeeze tubes means consistent dosing

Reduced Maintenance

Up to 30% annual savings from 66% less maintenance calls

Less Rewash and Reclaiming

Results in a reduction in operation costs

Reporting Capabilities

Product usage, formula costs, diagnostics and an activity log

EvoClean

Run your department better with key performance metrics. EvoClean provides summary reports on product usage, costs per formula, system settings and diagnostics, and an activity log can all be downloaded, viewed and imported. This is all pass code protected!

EvoClean is lightweight, easy-to-install, and requires less space. Depending on the model, only 0.5 GPM to 1.0 GPM water is used. Since it does not use AC or DC motors, it saves energy too!

SKU Number	Number of Products	Flow Rate	Machine Interface Included	T.E. Controller Included
91728-00	4	Low	Yes	Yes
91729-00	6	Low	Yes	Yes
91747-00	6	High	Yes	Yes
