IT & C&I Leadership Symposium
April 13, 2018

Strengthening Connections Between Teaching, Learning, and Technology

The **IT and C&I Leadership Symposium** is a one-day event that will bring together educational leaders from across the state of Arizona to explore the challenges and share the successes that exist between Teaching & Learning and IT departments.

Sessions will focus on improved collaboration, common goals and the transformational change that can occur through Teaching & Learning and IT.

Event attendees will include Superintendents, Assistant Superintendents, Teaching, Learning and Assessment Directors, Professional Development Coordinators, Chief Technology Officers, Instructional Technology leaders, and other state and district key players within Arizona education.

Districts will share their stories of best practices, learning approaches, professional development, culture, and unified IT systems, in a small setting that will allow for collaboration among the leaders of Arizona schools.

Carole Basile, Dean and Professor of Mary Lou Fulton Teachers College at ASU will be our featured keynote speaker.
