

# SOUTHERN CALIFORNIA EDISON

invites you to attend the  
**Downtown Santa Barbara Reliability Project**  
**OPEN HOUSE**

Wednesday, February 15<sup>th</sup>  
5:30pm-7:30pm

OR

Thursday, February 16<sup>th</sup>  
8:00am-10:00am

## Carrillo Recreation Center

100 E. Carrillo St., Santa Barbara CA 93101

The Downtown Santa Barbara Reliability Project will ensure the availability of reliable electric service to meet our customers' needs in the downtown Santa Barbara area. As we integrate new technologies and modernize the electrical grid, SCE is constructing a multi-million dollar infrastructure improvement program in the Santa Barbara area through 2018. We expect that these major investments will result in a safer, more efficient, more resilient, and more reliable power grid while reducing environmental impacts. Once the project is completed, it is expected these efforts will decrease the frequency and duration of power outages in downtown, meet the needs and expectations of our customers, and lead to a clean and sustainable future for all Southern Californians.

**SCE personnel will be on hand to discuss project impacts and  
answer questions related to the upcoming work.**

If you have any questions or need additional information, please contact Rondi Guthrie at 805-654-7257 or [rondi.guthrie@sce.com](mailto:rondi.guthrie@sce.com)
