

# Central Ohio Stormwater Roundtable

## May 29, 2025

### Stream Restoration – In Field Tours

For this roundtable, we visited 3 project sites in Jefferson Township. We spent our first hour at an active stream restoration project at Fieldstone, then traveled down the road to check out stream insert installations at Willow Brook Crossing and wrapped up with a look at a basin retrofit at Crawford Farms. You can find a Google Map of all 3 locations here <https://maps.app.goo.gl/nMKtPiU3DuMmN6aR9>.

*\*\*Because this roundtable event was held in the field, there are no corresponding presentation slides or recording. Additional resources for each project can be found below, as well as contact information for our speakers.*
