

UPDATED COVID-19 SAFETY PROTOCOLS

PCR Saliva Testing

Testing of students is every other week. Participation is voluntary but highly encouraged. Saliva testing is no longer mandated for high school and middle school athletes and students in elevated-risk extracurricular activities. Staff members who must be tested weekly will continue to do so.

Test-to-Stay

Rapid tests will be provided to students/employees who had direct contact with a COVID-positive person in school. Presence in school is permitted if they test negative in two district-provided rapid tests during the five days following exposure.

Contact Tracing

Modified due to low in-school transmission rates.

Return-to-School Protocol

Students/employees who either test positive or are exposed to a COVID-positive person and are symptomatic will be excluded from school for five days.
