**REGISTER FOR 1/4/22 NOW!**

RE-REGISTRATION IS REQUIRED

Help to keep your kids protected against the potential effects of COVID-19. Like millions of adults across our nation, children ages 5-11 can now receive a COVID-19 vaccine to help them stay healthy. COVID-19 Vaccines are safe, effective and free for children ages 5-years-old and older.

Vaccines are provided at no charge to families. Parents must accompany their child to the vaccination program. After the vaccine has been administered, your child will be required to remain in an observation area for 15 minutes.

Please bring the completed Consent Form to your confirmed appointment. Medical staff will be on-site to answer questions. If you have questions about the vaccine or this process, parents may call the Westchester County Department of Health at 914-995-5800.
