Open letter to service providers:

**Call to action:** The City School District of New Rochelle is asking any internet service providers willing and able to **provide free internet service to our students to please contact the Superintendent of Schools, Dr. Laura Feijóo, immediately at 914-348-1647.**

In this most difficult time of crisis, it is our moral imperative to educate 10,520 students across the City of New Rochelle. We have created a strong “Distance Learning Plan,” which can be reviewed on our website. In order to create equitable access to education for all we need your help.

Our teachers, school leaders and central office staff are up to the challenge of providing innovative instructional activities to support students during the next few weeks that we are out of school. But to make this a reality for all students, we need free internet access for all who require it.

Any service provider who is willing and able to help us at this critical time, please contact Dr. Feijóo, at 914-348-1647.
