

## ORCAS BIKES

Orcas Bikes is back up in full swing, our most popular tour is back this year and starting to go out daily in May! We take a 2-3 hour scenic loop around the westside of the island, collaborating with small businesses and farms to provide exposure and give our riders a local look into businesses they wouldn't find by car. We also provide rentals of our ALL electric fleet with comprehensive maps, safety gear, and recommendations everyday. Small guided groups promote proper road riding and our strategic routes maximize the fun and minimize the impact on traffic. Current hours are **8:30 to 6 pm** daily for the summer due to construction. *414 North Beach Rd.*
