14 September 2021

Orcas Island Public Library Presents Gardens and Climate Change with Barbara Bentley

Eastsound – [Orcas Island Library](#) presents a hybrid speaker event with **Barbara Bentley** (Professor Emeritus, Dept. of Ecology and Evolution, SUNY Stony Brook) on the Library's South Lawn and by [Zoom meeting](#) on **September 16th at 6pm**.

Barbara Bentley will speak about gardens and climate change. Her research focused on the effects of global change on lupines. She will be talking about the cascading effects of elevated CO₂ on a nitrogen fixation by bacteria in the root nodules. It's actually a positive take on a serious problem

To attend in-person, RSVP to cdapogny@orcaslibrary.org.

To attend by Zoom meeting, register at [this Zoom meeting link](#).
