

March Art Exhibit at Orcas Center; “COMING FULL CIRCLE”

The unique and fascinating work with folded paper circles, developed by sculptor Bradford Hansen-Smith will be the featured art at Orcas Center throughout the month of March. All models in this show are folded paper circles, mostly paper plates, reconfigured and joined in multiples, much like cell growth.

In Hansen-Smith art, a simple circle is transformed over and over again into countless iterations of geometric shapes. Inspired by Buckminster Fuller, who first made spheres of paper plates, Hansen-Smith expanded his work into elaborate pyramids, helixes, stars and spirals.

Bradford Hansen-Smith is a working artist and also a teacher in the process of exploring geometry through folding paper. While on Orcas he will be presenting several workshops, some open to everyone.

March 1: Orcas Center, 1:30 to 3:00 and 3:30 to 5:00

March 6: Senior Center, 1:30-3:00

March 7: Senior Center, (including Salmonberry students)
9:00 to 11:00

He will also be teaching workshops at the Orcas High School on March 6th and the Elementary School April 4th and 5th.

**ALL LOCAL ARTISTS ARE INVITED TO PARTICIPATE
IN THE COMMUNITY ART SHOW IN THE MADRONA
ROOM.**

Intake for this show will be Feb. 27, 10:00 to 2:00
OPENING RECEPTION: MARCH 1, 5:30 TO 7:00

Everyone is welcome, bring the whole family!
