

## **MAMMOGRAM VAN @ ORCAS SENIOR CENTER NONPROFIT**

**(Monday, September 23 and Tuesday, September 24)**

Assured Imaging Women's Wellness will be bringing the latest in digital mammography to Orcas Senior Center on Monday, September 23 from 8am to 4:30pm, and Tuesday, September 24 from 8am to 3pm.

Although one in eight women will be diagnosed with breast cancer, nearly all breast cancer is treated successfully if detected early. Assured Imaging offers a relaxed atmosphere with a friendly, professional, all-female clinical staff.

Although they need a minimum number of appointments to continue this service on Orcas, Assured Imaging has provided mammogram van services on the island for several years. In September 2017 they saw 42 patients over two days, and in September 2018 they saw 49 patients, all over two days.

All major insurance is accepted, and no referral is necessary. **Call (888) 233-6121 to schedule your appointment or click on [www.assuredimaging.com/ORCAS](http://www.assuredimaging.com/ORCAS).**
