

OCTOBER IS NATIONAL CO-OP MONTH

It's National Co-op Month! October is a time when co-op's nationwide raise awareness of the cooperative model as an effective way to do business and build communities.

At our Co-op we see how the cooperative model creates deep economic impact for local farmers, provides places of access where there are barriers to healthy food, and generates meaningful livelihoods and a sense of belonging in community.

Co-op members are the backbone of our Co-op community, supporting the Co-op in developing resiliency and flexibility as the needs of Orcas Island shift. Each year we continue to grow, and in 2020 we welcomed 175 new Member-Owners, bringing total membership to over 1600 households. As we look to this year and beyond, we look forward to growing the Co-op with you and continuing to find ways to support Orcas Island's vision of healthy community.

Celebrate National Co-op Month with us by joining the Co-op today!
