

Creating a Cooperative Economy -- Hosted by the Orcas Food Co-op – Sunday, February 10, 6-8 pm Odd Fellows Hall

Everyone welcome!

Come join us for an engaging conversation about how we can use the cooperative model to create a more equitable and sustainable economy in the Islands and beyond!

Learner Limbach, Orcas Food Co-op GM, will share what he learned during his recent visit to Denmark and Spain, including an exploration of one of most successful examples of cooperative economy in the world, the worker-owned Mondragon Cooperative in Spain. We will then have a facilitated community conversation to explore the topic and share ideas.

This session will also be an opportunity to give your feedback on the draft Orcas Food Co-op 5-year Strategic Plan.

FREE

healthy snacks and refreshments will be provided by the Orcas Food Co-op Deli
