

What happens when beaches are modified, and how can we improve shoreline management to benefit people and nature? Learn about a decade's worth of research that illuminates how San Juan County's waterfront is "shoring up" in the face of development.

Join us for a virtual "lunch and learn" with Friends' Science Director, Tina Whitman. We'll explore the science and alarming policy results from a 10-year research project on shoreline modification trends in San Juan County.

Tracking Change:  
Shoreline Armoring in San Juan County  
Tuesday, December 6th, 12-1pm  
Free virtual event via Zoom

Contact Tina at [tina@sanjuans.org](mailto:tina@sanjuans.org) if you are concerned about erosion and want to learn how to maintain a healthy natural beach, or are interested in removing an existing bulkhead and want to learn about alternatives to hard armor.
