MASTER GARDENERS SPRING PLANT SALE

(Saturday, May 11, 9am – 11am, Mullis Senior Center, Friday Harbor)

Thousands of vegetable starts and hundreds of perennials, all lovingly grown by San Juan County Master Gardeners. A large variety of wonderful tomatoes and peppers, including several tomatoes new this year. Look for labels at the sale that point out which tomatoes were winners in our Master Gardeners taste test last autumn! Many vegetable varieties suitable for containers and smaller gardens. Perennials are grown on Orcas, and include groundcovers, flowers, ornamental grasses, small shrubs, and wonderfully unique accent plants. Because these plants succeed in Master Gardener's gardens, they're very likely to succeed in yours. Master Gardeners will be at the sale to provide care and growing advice.

All proceeds from the sale are used to support Master Gardener programs such as this sale and the Diagnostic Clinics on Orcas, San Juan and Lopez.
