

The new Future's Lounge at the Orcas Island High School would like to promote part-time jobs to our students. If you're a local employer interested in posting a job suitable for after school and/or weekend hours then please contact: michele.keyes@gmail.com

Additionally the Future's Lounge will be promoting Trades and Technical careers to our students as well as supporting any college interests. If you're an employer with a technical or trade background and would be interested in promoting your career to our students then please email Michele (above) to schedule. We will be revisiting next Summer's job opportunities in the Spring. Our hope is to promote internships and apprenticeships in trade areas. Thank you in advance for your interest and support!
