

You can now buy Colloidal Silver of the highest quality at our location!

We use this for the disinfecting, hands, face, door handles tables, etc. on an ongoing basis.

Eco Cleaners remains open but has new store hours.

From now on we are available from 9am -12pm and 2pm - 5pm Monday to Friday.

We are always concerned with cleanliness and best possible sanitary conditions at our facility.

We never mix the laundry of our customers with the one of another person.

We can offer sanitizing at long cycles and highest temperatures for example for towels and sheets etc.

We also have the ability to steam sanitize finer garments for longer periods of time.

Wishing you well and hope you stay healthy!
