

Plan to attend the NACD Chicago January 19th meeting: **Audit Committee Agendas 2017: Emerging Issues & Best Practices**

Audit Committees continue to face many new and challenging issues and risks as we work through an already full agenda. Please join us as our panel of experts discuss how Audit Committees can prioritize hot topics in their agendas for 2017 including new accounting pronouncements, revenue recognition standards, cyber & risk management, voluntary increases in disclosures in AC proxy reports, and effective methods to make the best use of an Audit Committee's time. Our extended program will include case studies for roundtable discussions by participants and ample time for Q&As. We will end by 5:15pm and hope you will then join us for a networking reception.

Panelist

Tony Anderson

**Director Exelon, Avery
Dennison, AAR Corp.**

Panelist

Dave Landsittel
