

## 2020 IMPACT REPORT

750+  
students

84%

students know  
manufacturing is  
important to the US  
and local economy.

"I learned the importance of manufacturing and what it does for the country and the world; how crucial communication is within your team; how to use everyone's strengths and weaknesses to get the job done well; and how to document a long term project properly.

- Elizabeth B.

90%

learned at least  
one technical skill

79%

gained  
teamwork skills

86%

plan to pursue a  
manufacturing or  
STEM career
