Dr. John Baker, Superintendent • Diane Prystas, Principal • Kristy Jackson, Assistant Principal

September 24, 2020

Dear Roy Cloud Families,

Roy Cloud School Site Council (SSC) is a leadership organization whose equal members include staff and parents. We work to develop and recommend goals for the Single Plan for Student Achievement (SPSA), oversee the Measure U budget, and assess progress in meeting plan goals. The focus of the SSC is to ensure that the school is continually engaged in identifying and implementing curriculum and instructional practices that result in both strengthening the core academic and behavioral programs while ensuring students have access to and success in these programs.

SSC members agree to a two-year commitment. Our SSC is looking for interested parents to join our team of parents, teachers, and school administrators to help develop our school site goals. We currently have two parents returning for a second year, two parents who would like to serve another two year term, and one open position. Will you consider joining us?

Below, please read the submitted information from our two parents seeking another two year term. According to our bylaws, the school needs to vote them onto the council and we will be asking all parents to vote for their approval within the next couple of weeks.

**Christine Andiazaba, Parent:**

I have been a Roy Cloud parent for the last 9 years: My eldest son graduated from Roy Cloud last May and my youngest is in 6th grade. I have had the pleasure to serve on the school's Site Council for the last 2 years. I truly cherish the school's sense of community and I would like to preserve the tremendous benefits that the school has been providing.

**Gina Krigbaum, Parent:**

I am the mother of two Roy Cloud students, in fifth and second grade. They have both had great educational experiences at Roy Cloud and I am so appreciative of the work that goes into creating this environment. I have enjoyed taking part in the School Site Council over the last two years because it has allowed me to better understand our school's strengths and areas of opportunity and has allowed me to represent the broader Roy Cloud parent community in giving inputs into what we choose to focus on. I hope to continue to represent the parent community for the next two years.

More information about the council roles and responsibilities can be found here on the Roy Cloud website. Interested parents should email me ([dprystas@rcsdk8.net](mailto:dprystas@rcsdk8.net)) or the current SSC Chairperson, Mary-Elizabeth Robinson ([maryerobinson@gmail.com](mailto:maryerobinson@gmail.com)), with a brief introduction of interest.

Thank you for your consideration and partnership,

Diane Prystas, Principal
