

# SMART LIGHTING MADE SIMPLE WITH

**JADEMAR**  
LIGHTING®

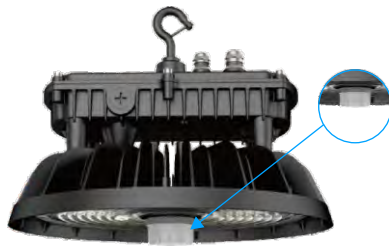

AND

**BubblyNet.**  
human-centric building control

Take control of your lighting with Jademar's BubblyNet-enabled product line. Whether for industrial, architectural, or commercial applications, our fixtures integrate effortlessly with BubblyNet wireless controls—delivering energy savings, flexibility, and convenience.

## Why Jademar + BubblyNet?

- Plug & Play Simplicity – Quick installation, no complicated setup.
- Seamless Integration – Compatible across multiple fixture types.
- Energy Savings – Optimize performance with smart sensor technology.
- Flexible Control – Manage lighting easily from one centralized system.
